

Dear Parents and Guardians,

Skype is an amazing program that Mr. Tindale is using to bring in guest speakers to talk with our class about ideas and experiences based on what we're studying. Because your child's face would be shown over the internet, your permission is needed for that to happen.

If you wish for them to participate in the calls that we'll be making, please sign your consent below. If you do not wish for them to participate, they can still remain in the classroom during the call, but would be out of the sight of the camera and would not interact (ie. ask questions) with the guest speaker.

Here is an article on using Skype in the classroom. bit.ly/mrtskype
Hoping for great learning!

☐ I give permission for _____ to have their face shown over the internet this year.

☐ I do not give permission for _____ to have their face shown over the internet this year.
